

Supplementary figure 1: Boxplots of thyroid function by visit and randomized treatment group, completers analysis set

The line inside the box represents the median, the lower and upper sides represent the 25th and 75th percentile, respectively, the 'whiskers' represent the lowest and highest values (range), and the 'x' represents the mean. Visit 1 (baseline), visit 2 (12 weeks) and visit 3 (24 weeks).
